Specialists in vitality
for a healthier return home.

Genesis 

Genesis HealthCare® does not discriminate against persons in its admission, services, or employment on the basis of race, color, national origin, disability or age.

Genesis Pulmonary Management

At Genesis HealthCare, our focus is to provide patients with successful pulmonary disease management and the education to live a healthy lifestyle. The more an individual can understand his or her condition, or that of a loved one, the more effective the overall treatment is for the patient.

In addition to advanced pulmonary capabilities, our services include:

- Trach management and weaning
- High-flow oxygen needs
- Chest tube and catheter drainage and care
- CPAP and BiPAP
- Individualized exercise program
- Specialized diets and nutrition management
- Quantifiable outcome measures
- Comprehensive patient/family education
- Home discharge planning support

Services and amenities vary by location.

An interdisciplinary approach helps for healthier outcomes

We apply an interdisciplinary approach designed to stabilize and manage medical conditions to transition patients back home quickly. Our team of experienced health care professionals will assist in achieving patient goals on their journey back to a healthier life.

- Consulting pulmonologist, rounding weekly
- Licensed respiratory therapist (7 days/week)
- Nurses specially trained in pulmonary care
- Medical director
- Attending physician
- Nurse practitioner or physician assistant
- Social services
- Physical, occupational and speech therapists
- Dietitian

Pulmonary management across a wide array of diagnoses

Genesis provides expertise in the management of chronic and acute respiratory conditions:

- Moderate to severe COPD
- Asthma
- Restrictive Lung Disease
- Pneumonia
- Chronic Bronchitis
- Emphysema

Educating patients, families and caregivers

Adapting to pulmonary disease may take some time for patients, families and caregivers. That's why Genesis offers individualized and group education sessions on a variety of topics.

- Breathing Techniques
- Oxygen Safety
- Anxiety and Stress Management
- Energy Conservation
- Nutrition
- Stop Smoking Education
- Respiratory Medications

At Genesis, learning to manage respiratory conditions is critical to a successful discharge home.
